## Dear Reader,

This is the twelfth issue of the ECN Brief which is a publication of the European Competition Network (ECN). The ECN is a network of the Member States' competition authorities (NCAs) and the European Commission (DG Competition). The ECN Brief aims to inform you about the activities of the ECN and its members and to reflect the richness of enforcement actions and advocacy in the Network. It focuses on news of major interest about EU competition law and policy. The present edition covers news from February to May 2012.

The present issue reports about a large variety of enforcement actions, notably a range of decisions imposing fines in cartel cases or finding abuses of dominance. It further contains new developments and discussions about potential changes in several Member States' competition enforcement regimes. This issue also flags a Resolution of the Heads of the European Competition Authorities on the Protection of leniency material in the context of civil damages actions as well as the recent ECN reports on competition enforcement in the Food and the Payments sectors.

More news about the activities of the ECN and its members will be published mid-July 2012. In the meantime, we wish you interesting reading!

#### DISCLAIMER:

This publication is a compilation of contributions from national competition authorities of the European Union and the Competition Directorate General of the European Commission ("the Authorities").
